

CORPORATE PROFILE

The DaisyMe Foundation is a Dallas-based 501(c)(3) nonprofit organization dedicated to breaking down systemic barriers in public health and medical access. Positioned at the intersection of grassroots community outreach and health policy navigation, the Foundation empowers adult populations with the structural support, health literacy, and systemic advocacy required to secure and sustain high-quality care within a volatile economic landscape.

CORE COMPETENCIES

DaisyMe Foundation delivers actionable, data-driven solutions and navigation structures to protect vulnerable communities and stabilize the broader healthcare ecosystem:

- **Certified Health Navigation:** Direct case management helping individuals seamlessly identify, enroll in, and transition between public benefits, Medicaid options, and subsidized ACA marketplace plans.
- **Health Literacy & Advocacy:** Constructing highly comprehensible instructional materials and technical workshops that translate complex regulatory changes, eligibility frameworks, and healthcare policy mandates into immediate public action.
- **Systemic Disparity Mitigation:** Analyzing structural policy changes (such as Medicaid funding rollbacks, work requirement mandates, and administrative redeterminations) to deploy preventative interventions before coverage disruption occurs.
- **Strategic Institutional Support:** Aligning community networks with healthcare providers, municipalities, and corporate stakeholders to decrease uncompensated care burdens and stabilize labor workforce health productivity.

DIFFERENTIATORS

- **Executive Legal & Administrative Oversight:** Governed by twenty years of dedicated executive healthcare administration and corporate IT experience, providing high-compliance, operationally sound institutional reporting and grant fulfillment.
- **Focused Demographic Specialization:** Strategically built to specialize exclusively in structural public health navigation and resource distribution for adult communities, steering clear of generalist youth programs to focus deeply on workforce and parental safety nets.
- **Verified Search & Digital Asset Infrastructure:** Powered by enterprise-grade digital management, including full Google Search

Our Focus

Our initiatives are driven to close the loop between grassroots reality and corporate policy—protecting community wellness while actively mitigating institutional compliance risks.
